

CMSC320 Introduction to Data Science

Writing Assignment 3

For this assignment, you are asked to watch 8 introductory statistics videos totaling 48 minutes. I believe this is a good use of our time to review some of the concepts we looked at in class and to reflect on how they are presented here.

Link to playlist:

<https://www.youtube.com/playlist?list=PL0KQuRyPJoe6KjIUM6iNYgt8d0DwI-IGR>

Videos: 1.1 through 1.8 (the first 8).

In your write-up, address the following questions:

Questions **1-8**. What is each video about? What did you learn that you didn't know before? What did you review that you did see in class? How helpful was seeing some of the familiar concepts again?

I recommend watching video 1 and answering question 1, then watching video 2 and answering question 2, etc.

9. In what way is the presentation similar to class? In what way is it different from class? Which one works better for you (it's okay if it's the videos!)? Why?

10. What do you think is the incentive for the author to create these videos? Provide at least 2 different reasons.

11. Which videos felt too long for how much was covered? Which did you feel were too short?

12. List a few (at least 3) different groups of people ("populations") that are a good audience for these videos.

Tip: For each question, write at least 1 paragraph and no more than 2. Treat this as an opportunity to reflect and share your thoughts. You will be graded on **effort**, but **leniently**.

Submission Instructions: Submit a **pdf** file to Canvas.

Name the file as follows: 'CMSC320_WA3_YourName.pdf'

REMEMBER: The use of AI tools in generating responses is not allowed.
