

CMSC320 Introduction to Data Science

Writing Assignment 5

Part 1

Read 3 (short) chapters below.

Chapter 1: [Choosing the Right Classification Model](#)

Chapter 2: [Refining Your Model](#)

Chapter 3: [Avoiding Pitfalls Such as Overfitting](#)

In your write-up, address the following questions:

1. What are the main parts of each chapter?
2. How does each chapter build on the previous one?
3. Why is selecting the right classification model often difficult? Discuss the factors that contribute to this complexity.
4. How did reading this supplement your class learning? Was there anything new, or maybe it was just useful to see things again?
5. How does the video in Chapter 2 fit into the overall narrative? Does it help your learning? How does the fact that it's a video help your learning?

Tip: For each question, write at least 1 paragraph and no more than 2. Treat this as an opportunity to reflect and share your thoughts. You will be graded on **effort**, but **leniently**.

Part 2 (short)

Watch this 9-minute reinforcement learning video and reflect on it in 200 words:

youtube.com/watch?v=L_4BPjLBF4E

Submission Instructions: Submit a **pdf** file to Canvas.

Name the file as follows: 'CMSC320_WA5_YourName.pdf'

REMEMBER: The use of AI tools in generating responses is not allowed.
